Matplotlib Demo

<center>Norah Jones</center>

<center>September 30, 2024</center>

For a demonstration of a line plot on a polar axis, see Figure 1. A citation (Nash Jr 1950).

```python
import numpy as np
import matplotlib.pyplot as plt

r = np.arange(0, 2, 0.01)
theta = 2 * np.pi * r
fig, ax = plt.subplots(
    subplot_kw = {'projection': 'polar'}
)
ax.plot(theta, r)
ax.set_rticks([0.5, 1, 1.5, 2])
ax.grid(True)
plt.show()
```
